Course applied for

☐ **RT20W – Radiographic Testing -- Level 2 (Welds)**

Course Specification available for downloading on the NDTA website
New Zealand Non Destructive Testing Association (ndta.org.nz)

Declaration:
I have read an understood the conditions of enrolment and pre requisite information (on page 2) regarding the course I have applied for

Applicants Signature:	**Date: / /**

Pre-Requisite Course Information

A certain level of entry knowledge is required so that the candidate can benefit from the training time allocated for each module. The following entry level knowledge requirements are based on ISO 25107 training syllabi, ISO 9712 qualification system and the CBIP certification examinations.

The course normally will be delivered over a period of 120 hours covering 15 days for trainees with little or no experience.

Total training hours for this course has been reduced to **80 hours (10 days)** in accordance with the ISO and CBIP Requirements. Reducing this training to 80 hours requires all trainees to meet the following conditions;

1 Have a current radiation safety licence and at least 40 hours theory training in radiation safety.

2 Have at least 3 months on job practical experience as a Radiographic Assistant.

3 Have at least one ISO 9712 L2 certification (or equivalent) in either; MT, PT, ET or UT. Refer ISO 9712 section 7.2.5 and CBIP PRO-CER-16 section 2.2.3

4 Have completed the NDTA RT20W pre-course training and assessment package (Approximately 10hrs duration)

In addition there are also several fundamental basic knowledge requirements for all NDT methods that are required as a pre requisite for any theory courses and these are:

5 Applicants shall be able to read, write and communicate orally in English at level appropriate to the training and have a **near vision acuity** satisfying the requirements of CBIP PRO CER – 18

6 A basic knowledge of Materials Technology and a knowledge of the material processes used during manufacture.

7 Math –. A basic understanding to high school level is appropriate. Pre-requisite worksheets will be sent to the applicant prior to the course.

CBIP Certification Exams

CBIP exams need to be applied for separately. This can be coordinated by contacting the NZNDTA Chairman Les Dick (chairman@ndta.org.nz). Or by applying directly to CBIP via their website.
Additional charges will apply Refer to their website:

https://www.cbip.co.nz/page/fee-schedule/12/15/
https://www.cbip.co.nz/view/online-application-form/30/

Certification to level 2 requires three CBIP exams: Theory (written), Specific (written) and Practical

As discussed NZNDTA course **RT20W** will satisfy the **theory training** requirements for direct access to CBIP Level 2. The written exams (General and Specific) should be able to be attempted based on this course. If the CBIP **practical certification exam** is to be attempted at the completion of the course, it is recommended that the candidate have at least **3 months on job practical experience as a Radiographic Assistant** in addition to this course.

CBIP requires addition experience (OJT) prior to issuing certification.

PPE

Standard safety footwear, glasses and personal radiation monitoring devices are required to be supplied by the applicant

Conditions of enrolment:

- Acceptance for enrolment is subject to the course proceeding as scheduled.
- Satisfactory completion of this training course does not constitute an authorisation to perform work. Certification is the responsibility of CBIP and is confirmed upon satisfactory completion of their exams.
- This course may include CBIP certification examinations (where applicable) but responsibility for this will be with the applicant to organise. Additional charges apply
- Applicant must be familiar with the applicable course specification detailing course content and pre requisite requirements including the ***Conduct Guidelines and Complaints policy***. Available for downloading on the NDTA website
- Course confirmation and placing will not be allocated until all course forms and course fees have been paid in full.

Signed applications can be scanned and emailed to **trainingcoord@ndta.org.nz**
